

Test Plan - Odoo Purchase Management System

Introduction

The objective of this Test Plan is to describe the overall testing strategy and methods that will be used to verify that the Odoo Purchase Management System fulfills its functional requirements. This document identifies the test items and features to be tested for the version 18.0.

Test Items

The following items will be tested in the Odoo Runbot environment:

- Odoo Purchase Module v18.0.
- User Authentication System (Login).
- Vendor and Product Database.

Features to be Tested

Based on the project scope, the following functional features will be tested:

- **Login Function:** Successful login with valid credentials (admin/admin) and error handling for invalid data .
- **Product Create:** Creation of products with mandatory fields like Name, Type, Price, and Taxes .
- **Vendor Create:** Creating vendor entries and validating required fields .
- **RFQ List View:** Loading the list, filtering, searching, and sorting .
- **Create RFQ:** Selecting a vendor and adding product lines .
- **Confirm Purchase Order:** Converting RFQ to PO and generating reports .

Features not to be Tested

The following areas are out of scope for this manual functional testing:

- Backend database and API testing.
- Performance, Load, and Stress testing.
- Security and Penetration testing.
- Inventory and Accounting module integrations.

Item Pass/Fail Criteria

- **Pass:** The actual result matches the expected result as defined in the test cases, and the feature works without errors.
- **Fail:** The actual result deviates from the expected result, or a bug is found that prevents the workflow.

Suspension Criteria and Resumption Requirements

- **Suspension Criteria:** Testing will be suspended if the Odoo Runbot URL is down or if a blocker bug makes the login impossible.
- **Resumption Requirements:** Testing will resume once the environment is restored or the blocker bug is resolved.

Environmental Needs

The following environment is required for testing:

- **Application:** Odoo Purchase Module (Runbot Link).
- **Browsers:** Chrome, Edge, or Firefox.
- **Testing Type:** Manual Functional Testing.
